

THE BENEFITS of Upgrading

YOUR FURNACE & AC TOGETHER

HEATING & AIR CONDITIONING

Most people wait for their HVAC units to fail before upgrading but here's why you should consider replacing one while you're replacing the other.

Signs You're Ready for an Upgrade

AC Life Expectancy

8-10 Years

Furnace Life Expectancy

15-20 Years

If You're Experiencing:

- Uneven Heating
- Frequent Repairs
- Strange Noises
- High Energy Bills
- Dry or Dusty Home
